

Example 3

Interview

- similar means the same genre, sounds, timbre, qualities
- visually, but also in function
- contrast: *"so different, with some similar bits, otherwise they are just different"*
- *[elephants]*: agrees

similarity	contrast
perceivable features	relatedness
partial features	
function	

Listening and classification exercise

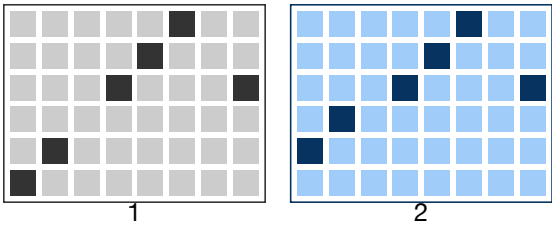

Challenge-Response exercise

Presentation 1

attempts: 1

type: similar

comment: "same pattern with slightly higher notes"

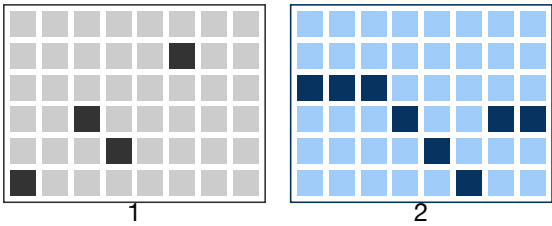

Presentation 2

attempts: 1

type: contrasting

comment: "completely different pattern", "repeated notes, no pauses"

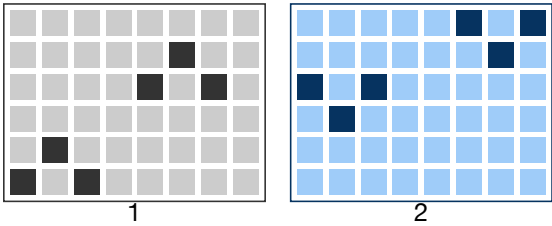

Presentation 3

attempts: 1

type: similar

comment: "same rhythm, up/down vs down/up, 2 pauses instead of 1"

Presentation 4

attempts: 1

type: similar

comment: "same patterns, different pauses"

Presentation 5

attempts: 1

type: contrasting

comment: "all notes, no pauses"

Presentation 6

attempts: 1

type: similar

comment: "same pauses, same notes, just in different places"

Presentation 7

attempts: 1

type: contrasting

comment: "different rhythm"

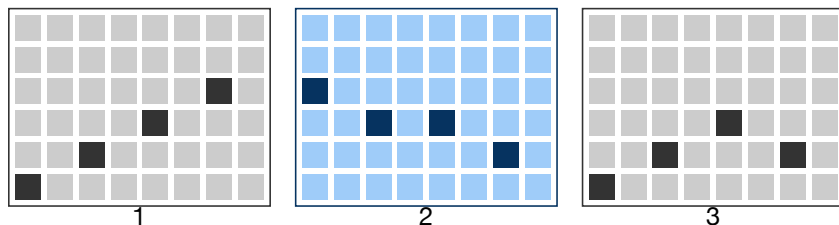

Fill-the-gaps exercise

Presentation 1

attempts: 1

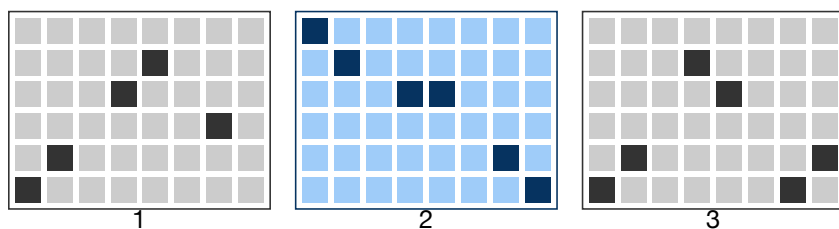

comment: keeps up/down, same rhythm, "I should try to be a bit more creative"

Presentation 2

attempts: 1

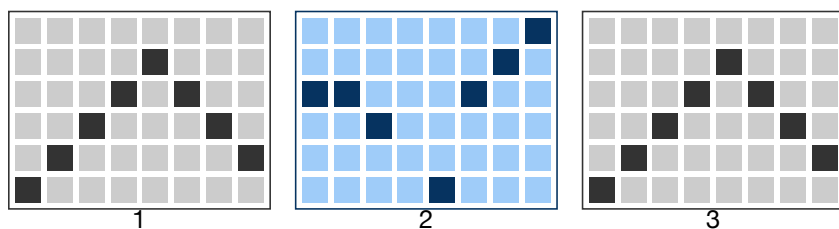

comment: same rhythm, "I like how it sounds"

Presentation 3

attempts: 1

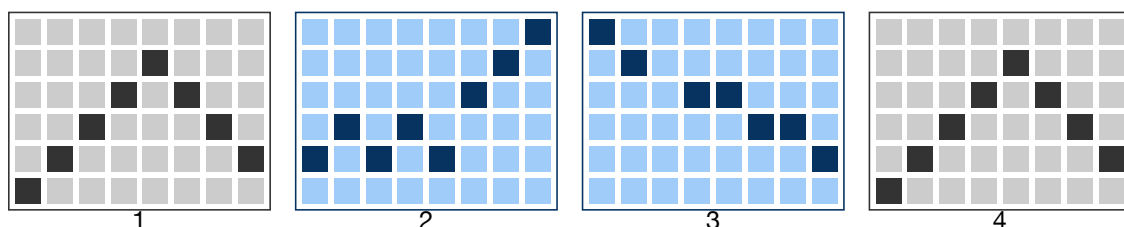

comment: "different, but with some similarities, it's jumpy"

Presentation 4

attempts: 1

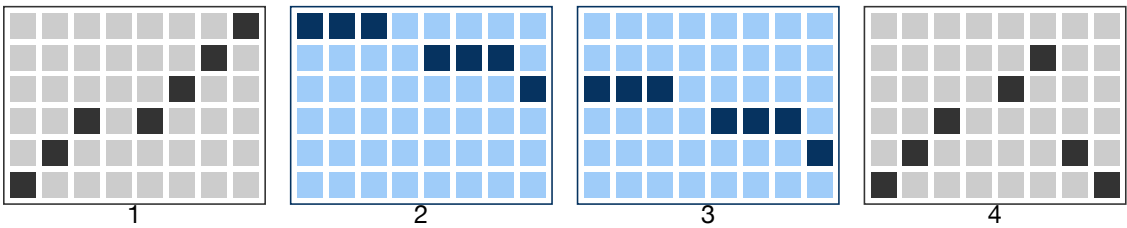

comment: "bars 1 and 4 are the same, I want something different but keeping some similarity"

Presentation 5

attempts: 2

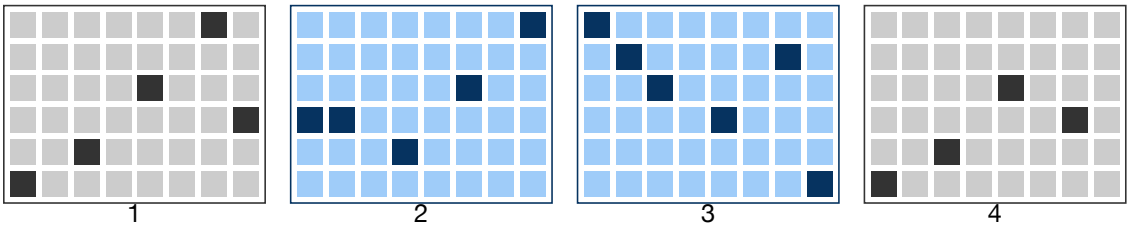

comment: finds 1-4 related, makes 2-3 related

Presentation 6

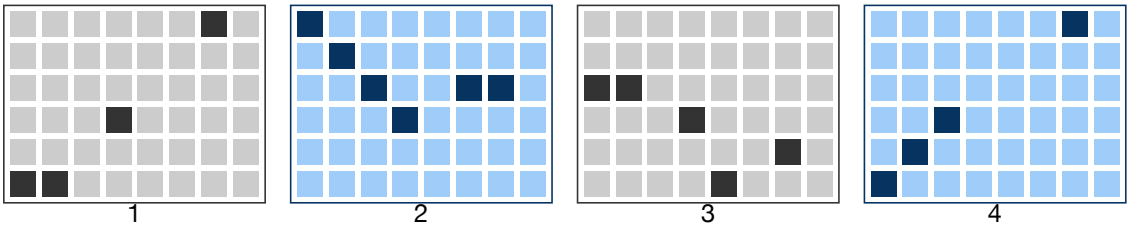

attempts: 1

comment: "I'm finding this hard..."

Presentation 7

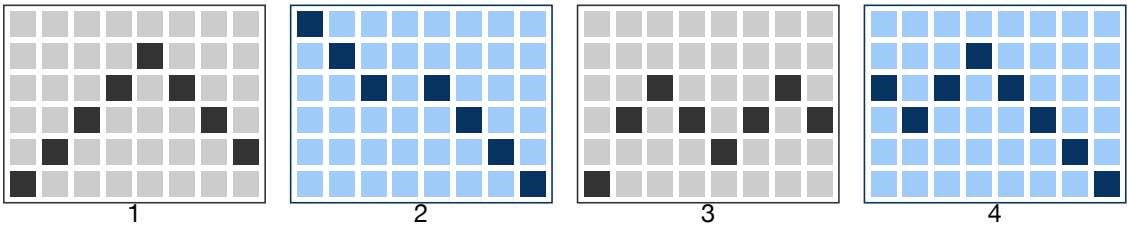

attempts: 1

Presentation 8

attempts: 1

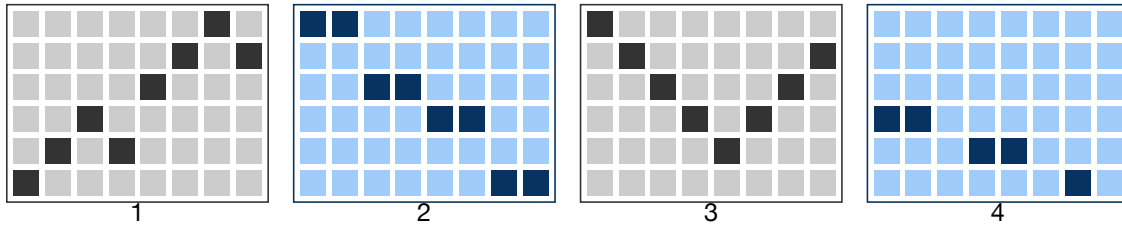

comment: finds 1-2 and 3-4 have similar patterns

Presentation 9

attempts: 2

comment: "I don't really like that"

Storytelling exercise

attempts: 1

comment: "this is the story of my son who wakes up every morning, then comes wake me up"
