

# Trust In Online Services PDF

Cluster: **Cluster of clusters (9-14) 2 of 5**

*Not overloaded or very concerned about interruptions; more content to let algorithms make decisions and put in effort to get better results; pragmatic; switching off from work not a problem*

Showing data for 25 responses

**I trust online services to make the best decisions about what to show me**

**I'm happy to share information about my interests and activities with online services if it will improve the service**

**I am uncomfortable about sharing personal information with online services because I don't know what they do with it**

**I prefer to keep information about my interests & activities under my control**

**I'm more willing to let a computer program have personal information if I know that I can control it**
