

Attitudes To Interruptions PDF

Cluster: **Cluster of clusters (9-14) 4 of 5**

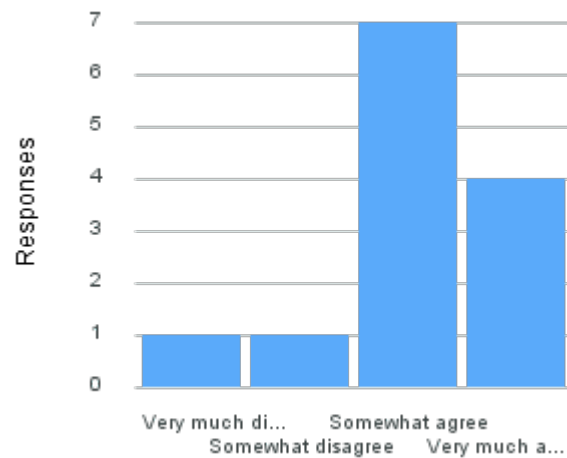

Experiences overload or very concerned about interruptions; low level of confidence and in online services, but prepared to invest effort in training; slightly more trusting of services than other clusters; pragmatic; switching off from work not a problem

Showing data for 13 responses

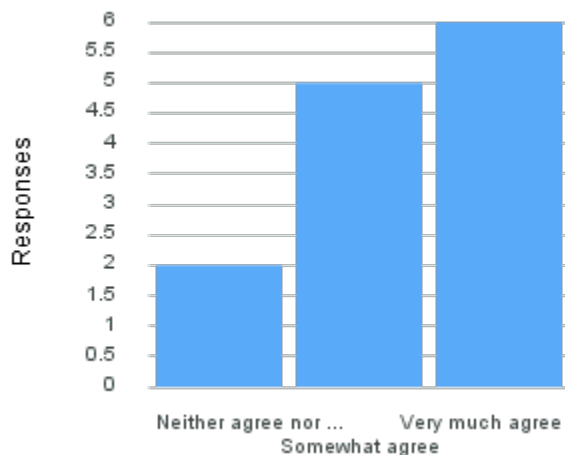

I receive so much information online that I often miss things that are important or time critical

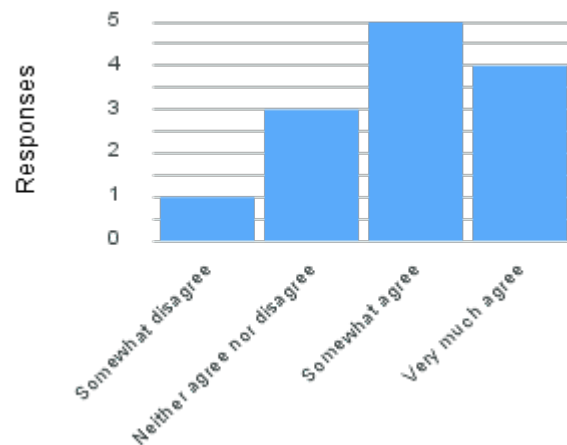

I don't mind being interrupted when it's about something important

I often receive notifications about things that could have waited for later

Getting interrupted by notifications/alerts when I'm trying to get things done is a problem for me

My online services always get it right about what I want to be interrupted with
