

Preferences For Online Services PDF

Cluster: **Cluster of clusters (9-14) 2 of 5**

Not overloaded or very concerned about interruptions; more content to let algorithms make decisions and put in effort to get better results; pragmatic; switching off from work not a problem

Showing data for 25 responses

Online services always get it right when they judge what I'm interested in

Not all of the things that I follow are equally important to me

I want to be able to tell online services what matters to me most

I don't have enough control over what online services choose for me

I'm happy to have a computer make decisions about what content I should see

Being able to rank or prioritise hashtags and other content appeals to me

I am happy to put in effort to 'train' the online services in order to see better results
