

# Preferences For Online Services PDF

Cluster: **Cluster of clusters (9-14)** 1 of 5

*Not overloaded or very concerned about interruptions; low level of confidence and trust in online services; less interested in investing effort in training; switching off from work not a problem*

Showing data for 34 responses

**Online services always get it right when they judge what I'm interested in**

**Not all of the things that I follow are equally important to me**

**I want to be able to tell online services what matters to me most**

**I don't have enough control over what online services choose for me**

**I'm happy to have a computer make decisions about what content I should see**

**Being able to rank or prioritise hashtags and other content appeals to me**

**I am happy to put in effort to 'train' the online services in order to see better results**
