

Redaction Explanation Key

The purpose of undertaking the INTiLE interviews is to obtain experiential insights from individuals whom have directly relevant information and experience regarding new technologies within law enforcement. As part of undertaking these interviews it was agreed that no specific information (such as force or individuals' names, operational or technology system details) would be required and that a redaction system would be used for any unrequired information.

The following constitutes the different redaction criteria options:

[REDACTED – 1]	Establishment:	Identifies a police force/agency/government department/comparable body/police related region(s)
